

## **Introducing PASS Release 6.24**

PASS Release 6.24 further enriches PASS functionality and improves the procurement process.

Here are the highlights:

### ***Requisitions***

- This only applies if the agency of the requestor is **OCTO**.
  - A new field 'program unit' has been added, a mandatory field which appears with respective options when creating a requisition.

### ***Direct Voucher***

- The issue of the vendor name populating in the address fields for one time vendors on direct vouchers has been rectified with this release.
