

Introducing PASS Release 6.28

PASS Release 6.28 further enriches PASS functionality and improves the procurement process.

Here are the highlights:

Sourcing:

- Sourcing module has been implemented for the DCPS agency.

Requisitions:

- For DC supply schedule requisitions when Contracting Officer sets the DCSS requisition field to "YES", selects the vendor name the DCSS contract field shows up on the form and respective contract numbers tied to the supplier are reflected in the drop down.
