

## **Introducing PASS Release 5.13**

PASS Release 5.13 further enriches PASS functionality and improves the procurement process.

Here are the highlights:

### ***Analysis***

The BAFO field was added to the sourcing reports in Analysis. The Contracting staff can now create a BAFO sourcing event.

The Procurement Method, Contract Type and Description fields have been added to the Cycle Time report in Analysis.

### ***Sourcing***

The OCP helpdesk information will now be displayed on the eSourcing registration page in case of login issues.

The BAFO sourcing events will not be displayed to the generic account or on the OCP website.
