

## **Introducing PASS Release 5.15**

PASS Release 5.15 further enriches PASS functionality and improves the procurement process.

Here are the highlights:

### *Contracts Module*

The required validation for email notifications has been removed for when entering contracts that are either expiring today or have expired.

### *E-Forms*

#### *oPIF*

An Estimated Dollar field has been added to the oPIF form, allowing users to enter an estimated cost for the project.

#### *oAPT*

The oAPT eform has been added to PASS. The oAPT will be used by the agencies to enter their procurement plans into PASS.
